### **Future Career Aspirations**

To work in total commitment, creativity, implementation of projects, evaluation and decision-making. I have also been active in reproductive health activities, research and interventions. My dream is to be able to put the masters into more practice and make impact in addressing reproductive health related issues. I have learnt the art of multitasking and working within set deadlines. I have been actively involved in activities towards Beyond zero campaign by offering technical support and assistance due to my research interest in Women's health and move toward achievement of the MDGs and Vision 2030. Mentorship has been my passion especially on addressing maternal and child health. Working with MOH and other stakeholders (LVCT, Red Cross, Bidii Foundation, Capacity Kenya) I have been supporting Stakeholders forum to drive the reproductive health agenda and emphasizes on service integration. I have been involved in developing work plans, dissemination and gathering stakeholder feedback for work plan development in the project.

Future aspirations is to venture into the academic world, pursue further learning and drive the research agenda in women's health to address emerging reproductive health issues.

### **Trainings Attended**

- BEmONC training by Funzo Kenya in Conjunction with MOH, Outspan College and APHIA *plus* KAMILI
- LARC training by ASI(jhpiego) in Conjunction with MOH
- Online courses on Maternal survival, Gender training, Security training, FP legislature and compliance, Healthy timing and spacing of Pregnancy,
- VIA/VILI screening and Cryotherapy treatment option for Cervical cancer patients
- HTC training for service providers by MOH in conjunction in with LVCT and NASCOP
- Prevention with Positives (PwP) of HIV/AIDS training by NASCOP
- Infection Prevention and Control training by APHIA *plus* KAMILI
- Launch of the Reproductive Health agenda by Division of Reproductive Health

### **Publications in refereed Journals**

Together with my supervisors (DR Harun Kimani and Dr Peter Mwaniki) published an article which was my thesis work entitled 'Utilization of skilled birth attendants among women of reproductive age in Central district, Kitui County'. It was published by *African Journal of midwifery and women's health* in their Volume 7 Number 2, April-June 2013 edition.

### **Hobbies and Interests**

Reading professional articles and research articles on women and child health

- Mentorship and capacity Building for health professionals on reproductive health
- Environmental sanitation, gardening and helping the elderly
