Future Career Aspirations
<p>To work in total commitment, creativity, implementation of reproductive health projects, evaluation and decision-making, research and interventions. I have learnt the art of multitasking and working within set deadlines. I have been actively involved in activities towards Beyond zero campaign by offering technical support and assistance due to my research interest in Women’s health and move toward achievement of the SDGs and Vision 2030. Mentorship has been my passion especially on addressing maternal and child health. Working with MOH and other stakeholders (LVCT, Red Cross, Bidii Foundation, Capacity Kenya), I support Stakeholders forum to drive the reproductive health agenda and emphasizes on service integration. I participate in developing work plans, dissemination and gathering stakeholder feedback.</p> <p>Future aspirations is venturing into the academic world, pursue the research agenda in women’s health to address emerging reproductive health issues.</p>
